A high quality TPMS diagnostic tool can:

- Diagnose all TPMS sensors
- Program EZ-sensor® family of products
- Provide audit reports
- Perform relearn procedures
- Include OBDII capabilities

For the best TPMS coverage and service, ensure that your TPMS tool has the latest software update.

Updated in April 2022.

Certain EZ-sensor® PN's 33500, 33700 and 33900 are supported by the below tools, however, these tools are no longer supported by tool manufacturers, therefore:

- Latest software releases that give you access to updated coverage and bug fixes are not available
- You will not be able to use the tool for programming EZ-sensor® GO
- You will not be able to benefit from the latest EZ-sensor® coverage due to a lack of software updates
