

A Single SKU Solution

Same powerful, OE quality, single SKU technology in three different mechanical packages for unique fitment options.

Tire Pressure Monitoring Systems (TPMS) is a vehicle safety feature that is mandated in many parts of the world. **Schrader TPMS Solutions is the leading global original equipment manufacturer of TPMS.** Schrader's EZ-sensor® family of products can be programmed to service over 97% of vehicles.

Rubber Snap-In

Part #33500

Available with an aluminum clamp-in stem option that is now available in black matte.

Adjustable Angle Aluminum Clamp-In

Part #33700

Adjustable angle stem to allow fitment in more aftermarket wheels. This EZ-sensor® offers an attractive aluminum valve stem and is rated for speeds up to 200 MPH.

90° Aluminum Clamp-In

Part #33900

Designed to fit specialty aftermarket rims with 90° valve holes. This sensor offers angled or straight stem options for further fitment, as well as silver and matte black color options for customization.

FEATURES

- ▶ Combines 314.9, 315 & 433 MHz applications into one sensor
- ▶ Achieves OE quality requirements
- ▶ Future proofed to support new and pending OE system technologies
- ▶ Compatible with most programming tools

BENEFITS

- ▶ Reduces overall cost of service
- ▶ Increases speed of service
- ▶ Optimizes inventory levels and turns
- ▶ Have the right part when you need it
